

Abhinav Mukund Kulkarni

3900 30C, Parkview Lane, Irvine, CA, 92612, United States; +1 512 658 7456; abhinavkulkarni@gmail.com; WWW

EDUCATION	University of California, Irvine 2011 - 2013 (Expected) Master of Science, Computer Science, 4.0/4.0
	National Institute of Technology, Tiruchirapalli, India 2005 - 2009 Bachelor of Technology, Computer Science, 8.34/10.0
COURSEWORK	Fall '11: Intermediate Statistics A, Machine Learning, Data Structures Winter '12: Intermediate Statistics B, Statistical Methodology II, Probabilistic Learning, Information Retrieval Spring '12: Intermediate Statistics C, Statistical Methodology III, Graphical Models
WORK EXPERIENCE	Microsoft Corporation, Search Technology Center Hyderabad, India <i>Software Developer Engineer</i> October 2009 - August 2011 The focus was on improving relevance of algorithmic search overall as well as in specific segments by employing statistical methods to mine information from user click patterns from Internet Explorer and Microsoft Toolbar user click logs. My work on relevance of local search queries (containing locations) and offline computation of geo-specific popularity of websites resulted in new features incorporated in Bing search engine. Indian Institute of Technology, Madras, Computer Vision Lab Chennai, India <i>Project Associate</i> August 2009 - October 2009 The project involved development of highly scalable multi-camera surveillance system that allows face recognition and object tracking from live video feed. The task was to accommodate multiple cameras and allow real-time object search in databases.
PROJECT WORK	Heritage Provider Network Health Prize Fall 2011, UC Irvine Participated in HHP Prize competition hosted by popular data modeling and prediction platform Kaggle. Implemented machine learning algorithms to identify patients who will be admitted to a hospital within next year using historical claims, drug and lab data. Chemistry Corpus Analysis Winter 2012, UC Irvine We worked on the hypothesis that Chemistry is more closed in terms of collaboration among researchers than other Physical Sciences such as Physics and Mathematics. We analysed the graph of authors of publications from reputed journals induced by co-authorship and affiliation relations and contrasted Chemistry with other Physical Sciences. Bachelor's Thesis: Simulated Study of Generalized Distributed Scheduler Advisor: Prof. Leela Velusamy December 2008 - April 2009, NIT Tichy Simulated study of Generalized Distributed Task Scheduler (GDS) in Grid Environment which allocate resources to the tasks classified in the real time categories such as critical and non-critical by migrating tasks for better schedulability.
SKILLS	Languages: C, C++, R; Packages/Tools: Eclipse, Visual Studio, MATLAB, Octave
AWARDS	Team mentioned in the special meritorious list of ACM ICPC 2008, South Asia Region.
LEADERSHIP	Marketing Head for Fine Arts Society of NIT Tiruchirapalli. Event Manager for CSurf 09, the online programming contest conducted in Vortex 09, the annual departmental symposium of CSE department of NIT Tiruchirapalli.
EXTRA CURRICULAR	Winner of gold medal in swimming contests held in sports events of NIT Tiruchirapalli. Community service through National Service Scheme (NSS) involving forestation.
